FULL STACK DEVELOPER

• Junior Full Stack Developer, I thrive on exploring new challenges and continuously learning beyond my comfort zone to expand my technical expertise.

FRONTEND

- HTML
- CSS
- Javascript
- React
- Tailwind
- Typescript

BACKEND

- Node.js
- Express.js
- MongoDB
- PostgreSQL
- Next.js
- Supabase

OTHER

- Git
- Github
- Vercel
- Figma

PROJECT

Buddy Blog

[Github](#) [Website](#)

- Nuxt.js
- PostgreSQL
- Typescript
- Tailwind
- Supabase Auth

Developed "Buddy Blog," a dynamic personal blog platform for seamless content creation and interaction. Key features include easy user sign-up, intuitive post creation, a comment system for engagement, and profile management. The platform ensures a smooth, user-friendly experience for both readers and content creators.

Home Service

[Github](#) [Website](#)

- Next.js
- PostgreSQL
- Typescript
- Tailwind
- Supabase Auth

Created a dynamic web platform to connect homeowners with reliable service providers. Key features include easy user sign-up, service listing management, address input for service location, review systems, and secure payment processing. Both homeowners and service providers have access to tailored dashboards, feature smooth interactions.

Portfolio

[Github](#) [Website](#)

- Next.js
- Typescript
- Tailwind

This project was born out of my passion for front-end development. To fulfill this, I created portfolio website designed to full my enjoyment of front-end development. The project features a user-friendly design with three pages a project showcase, a personal information, and a contact section, ensuring a seamless and engaging experience for users.

Tourist

[Github](#)

- React
- Tailwind

This assessment is checkpoint class form Techup to build a responsive tourist information platform. The homepage show display tourism-related data from file JavaScript in project allowing users to search by title and filter results by category. This project tests skills in React components, styling with Tailwind CSS, providing hands-on experience

EDUCATION

• Sep 2024 – Jan 2025

Tech Up Full stack developer bootcamp

• Jan 2018 – Jan 2022

King Mongkut's Institute of Technology Ladkrabang
Bachelor's degree, Industrial and Product Design
